NURSERY NEWS & EVENTS

Inside Out Radio Show

Inside Out is the best of both worlds, providing expert advice from gardening and landscaping to home improvement projects. Inside Out is truly a great blend of the outdoors and the indoors. Join John Shea and David Sherwood Saturdays from 11-1.

New Azealas and Boxwoods
We just got some new shrubs in! They are a type of azeala that we have not carried before. Get them while they're hot! They're going very fast...
Additionally, we just restocked some boxwoods that were sold out during the winter months.

Spring Seasonal Specials

Come visit the nursery and check out all of our spring specials! It's tulip season, so there are tons a deals on various bulbs. Additionally, take a walk through our butterfly garden and see the spring flowers in bloom and the new butterflies that have just left their cocoons!

Location:

2651 Barrett Station Road

Ballwin, MO, 63021

From North or South St Louis Co. take I-270 to the Dougherty Ferry exit. Go West 1 1/4 miles to the 2nd traffic light. Turn right on Barrett Station Rd. Go north about 1 mile and we'll be on your left.

HISTORY

Sherwood's Forest is a full service landscape contractor, nursery, and retail garden center. Our plant inventory is extensive and growing every year. We have been serving the St. Louis area for over 34 years. Our professional staff and nursery specialists are always around to help with your gardening needs.

Check out our landscaping section to get inspired for personal landscaping projects, or come down to the nursery for a consultation. We are happy to help brainstorm and help you find the perfect plants, flowers, and trees for your own garden project! More info about landscaping can be found on our website, or by inquiring via email, phone or in-person visit.

ABOUT US

David Sherwood – President

David is the heart & soul of Sherwood's Forest. He is the owner and creator of the nursery, and chooses which plants to stock and how much to order. He also runs all nursery related programming, like Children's Garden Club and the Butterfly Garden. His favorite thing to grow is pumpkin and has won first prize for best pumpkin at the Missouri State Fair for three years running. He has a pet butterfly named Steve.

Jaime Gannon – Landscape Designer

Jaime works in the landscape department and is in charge of all the landscaping around the nursery. He works Mondays and Wednesdays, and has his own gardening and landscaping business that he runs the other days. Sherwood's is grateful to have his expertise and he is a valuable landscaping consultant. His favorite flowers are snapdragons.

Jim Van Valkenburg – Certified Arborist

Jim takes care of all the plants and trees on the premises, ensuring that they are always in good shape. He also has a great sense of humor! His one true passion is trees, and he spends all of his free time camping, climbing or hiking in the Ozarks. He knows about all trees, as he is well traveled around the United States and collects tree samples and makes his own syrup.

Karl Thompson – Landscape Designer

Karl is one of our best landscape designers, and his consultations are always a great time. He has his own YouTube channel, solely dedicated to amateur garden improvements. Karl has an uncanny ability to garden in a suit and not get dirty at all! He's partial to the boxwood shrub, and has been on the local TV stations many times to give gardening advice. Additionally, he often appears as a guest on David's AM radio show, Inside Out.

Bill Minford – Commercial Landscape Designer

Bill is the head landscaper here at the nursery. He leads the consultations department and is our go-to-guy, so reach out to inquire about his landscaping services! He works Mondays through Fridays all day and if he doesn't have a consultation, you can find him in the Butterfly Garden with David feeding the new butterflies sugar-soaked cotton. His favorite flowers are roses, and he always brings some home to his wife Jeanne.

TREES

We have over 100 varieties of trees – click on a category below to see photo examples and learn more about each type of tree.

CEDARMAPLEHORNBEAMBIRCHREDBUDMAGNOLIA
ELMOAKSPRUCEJUNIPERPINEGINKGO

Cedar has a reddish brown heartwood, while the sapwood is paler and ranges from dark yellow to almost white. It’s grain is straight with a uniform, fine texture. When dried, cedar has a weight of 24lbs/ft3 and is resistant to rot. Cedar trees grow well in areas with good, full sunshine and well-drained soils, which are acidic, alkaline, sandy and full of clay. If you have further questions about cedars, please feel free to call us or visit the nursery.
