4. Very busy
  - a. They use like approx. 7 typefaces
5. Ugly pictures
  - a. Ugly filters over the pictures

Here is a list of all the things I love about this website:

1. Nothing?

## LINKS AT THE BOTTOM OF THE PAGE/IN A DROPODOWN

- CLIENTS
- REVIEWS
- AWARDS
- EMPLOYMENT
- REQUEST INFORMATION
- PINTEREST (INSTAGRAM/FACEBOOK?)

I think that while the employment and testimonial links are important, they aren't imperative. I would either have an additional drop down menu with other links, or include the links on the bottom of every page, where they currently have their contact information. There should also be a search bar at the bottom (or top, haven't decided yet).
